

About Woodman Welding:

Woodman Welding has been in the business since 1995. Our fabrication shop is located in Glenwood, Iowa just south of 275 on L45. Our 8,000 sf shop and office have the equipment and certified welders to meet any of your Custom Steel Fabrication, Structural Steel Fabrication or Stairs and Handrail requirements. We work with all types of material including steel, stainless steel, aluminum and brass and provide short runs of small, handheld objects.

Our coatings include any of your standard shop primers, galvanize finish and powder coating to your specifications. We fabricate according to "AISC" Standards with in-house inspection and can provide outside inspection, if required. Throughout our history we focus on service, product quality, knowledge, timely delivery and meeting long term customer needs.

Our detailing is according to "AISC" Standards with electronic submittals. We can also "Design Build or Value Engineer" your project for a cost saving to our customer.

Companies "GOAL" is simply to meet our customer's requirements with cost savings idea's and value.
